

RG 2202: Subject File Collection

Dates: ca. 1970 – ongoing

Extent: 4 boxes, extendable through interfiling

Description: This ready-reference collection has been compiled in order to highlight some main topics of interest within our holdings, or to provide straightforward answers to frequently asked questions. The collection is intended to grow as future archival workers add files for major events, persons, and topics, and flesh out those files already existing with further clippings and articles.

Restrictions: There are no restrictions on access

Arrangement: Files have been arranged alphabetically.

Further accruals: This collection is meant to grow organically to meet the reference needs of the University of Saskatchewan Archives and Special Collections.

Created by Stevie Horn on 13/04/18.
