The Work of the
Auxiliary

THE Women's Auxiliary to the General Hospital Board was organized two and a half years ago, when the new wing to the Hospital was about to be built. They took for their objective the furnishing of the linen for the wing. This they did, and also made the first payment of \$1,050 on the X-ray machine. Last year they supplied and made all the linen for Hospital and Nurses' Home. This year they have added comforts to the semi-private Maternity Wards, and have supplied curtains, bedroom rugs and chairs for the Nurses' Home. They have also assumed the responsibility of completing the payments on the X-ray machine.

The ladies meet in the Home every Wednesday afternoon to sew. They feel that although the Hospital is a city-owned institution, and the citizens are taxed to support it, yet there are many extras that can be added that will go far in increasing the comfort of both patients and nurses, and thereby the efficiency of the Hospital will be greatly enhanced.

MRS. J. H. LAIRD,
President.

MRS. A. MacBEAN,
Secretary.
