

THE
DESCENDANTS
OF

Samuel Getty

AND

Catherine Kinney

In loving memory of my grandmother Isabella Rathwell (nee: Getty) (1897 - 1968). She created the framework from which I expanded and completed the information.

It was my grandmother's wish that some member of the family would carry the torch and complete the family history. I feel fortunate that I have been afforded the opportunity to pick up where my Grandmother left off and complete it to fruition.

All of this would not have been possible if it were not for my wife, Linda, and my 3 sons for putting up with all the materials spreading around me at times.
