

To Seager Wheeler
Maple Grove Farm
Rosthern

This is an address to you from the citizens of the City of Prince Albert and district initiated by the Prince Albert Board of Trade. This address places on record the Board's appreciation of your wonderful services pertaining to agriculture, particularly in seed selection. No person will dispute the three prairie provinces of western Canada are for the time being dependent upon its prosperity chiefly by growing grain. Anyone can grow grain but it is given to few to grow grain as you grow it. By intelligent selection of seed you have created new varieties peculiarly adapted for this western country. Over a period of thirty-six years you have produced types of seed that give higher yields, better milling, earlier ripening and disease resisting qualities the result of which reckoned by dollars and cents or by benefits conferred on mankind makes your life's work one of the most outstanding achievements amongst the leading men of today.

The Prince Albert Board of Trade in season and out of season is doing its best to assist settling this district with prosperous farmers, realising as it does that prosperous farmers mean a prosperous community. No single factor is of such significance for use in its propoganda than the fact that "Seager Wheeler produces the best wheat in all the world in this district".

The Prince Albert Board of Trade notes with pride your seed is grown from Argentina clear up to Alaska, on the American continent, and some parts of Australia as well. Commencing in the year 1911 when you won at New York the sweepstakes for the best hard red spring wheat grown in Canada or U.S.A. down to a few weeks ago when you won the sweepstakes at the Provincial Seed Fair at

Saskatoon you have won literally hundreds of prizes and awards including many international ones under the keenest possible competition and against the best wheat grown in the whole world but the greatest of all is the reward which comes to you as a man who has benefitted his fellow men and who will leave the world the better off and more advanced for his existence.

The Prince Albert Board of Trade congratulates you on your achievements and hopes you will long be spared with good health to continue your good work redounding to your credit and to the credit of the soil and climate of this district in the Province of Saskatchewan.

PRINCE ALBERT BOARD OF TRADE
