J. E. PARK, B.S.A.,
Assistant in Horticulture

Dr. Seager Wheeler
Rosthern, Sask.

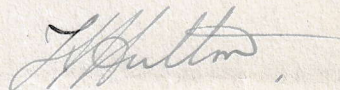

Dear Sir:

Following are the results from cooperative variety tests in 1929 and a five-year average for several varieties.

No.	Variety	Days Mat.	Length of Straw	Strength of Straw	Grade	Yield Per Acre		Value Per Acre	
						1929 Bu.	5-Year Average Bu.	1929 \$	5-Year Average \$
1	Garnet				1 N.	31.6	44.2	39.82	
2	Reward				1 "	39.1	41.4	49.27	
3	Ceres				1 "	54.6		67.16	
4	Early Triumph				2 "	59.9	57.5	73.68	
5	Marquis				2 "	54.7		67.28	
6	Own Marquis				1 "	29.7	47.6	37.42	

We have a limited quantity of Gopher oats, Reward wheat, and several of the barley varieties. We are offering small quantities, not more than one bushel, of these as premiums to our cooperators. We will be pleased to know your preference as soon as possible in order that we may allot the seed equally.

Yours very truly,

Ass't Superintendent

FVH/JG

P.S - I am enclosing reports from our own rod runs.
